

## Community and Sponsorship

At Heron Resources, our aim is to enhance the communities in which we operate. Our Woodlawn Zinc-Copper Project is located in the Southern Tablelands of New South Wales. The region represents an important part of our operations and every year Heron injects significant funds into the local economy through wages, contracts with local suppliers and service providers, locally purchased goods as well as through community partnerships and sponsorships.

As a company, we support local community initiatives by partnering with organisations and local not-for-profit groups to provide better services or enhance the livability of the region.

Heron has recently contributed to a number of local worthy organisations including:

- Tarago Sporting Association outdoor fitness equipment
- Sponsorship of the Annual Tarago & District Show
- Tarago Preschool cookbook fundraiser
- Windellama School sporting equipment

The objective of Heron's sponsorship program is to support the various communities we operate in, striking the right balance between stimulating economic growth and social development.

Our activities in the community support a broad range of interests including business development, community events, youth, sport, the environment, education and health and safety.

To enable us to evaluate all opportunities, we invite you to contact us in writing to [heron@heronresources.com.au](mailto:heron@heronresources.com.au) detailing the cause, event or organisation you are seeking support for with as much detail as you can. Please put DONATION REQUEST in the subject line.

Heron carefully considers all sponsorship requests received and will notify you as soon as possible regarding your request.
